INTEREST CHARGE: \$48.32

Days in Cycle: 30

REWARDS SUMMARY

Points earned this period: 3,842

Points balance: 21,407

IMPORTANT INFORMATION - PLEASE READ

How we calculate interest: We use the average daily balance method (including new purchases). The Annual Percentage Rate (APR) is the annual interest rate on your account. Interest is calculated by applying a daily periodic rate to the average daily balance for each day in the billing cycle.

What 'balance subject to rate' means: this is the portion of your balance that actually accrues interest at the stated APR. It may differ from your New Balance because recent payments and interest-free grace period purchases are excluded.

Late payment fee: \$35.00 if your minimum payment is not received by the payment due date.

How to avoid interest on purchases: pay your New Balance in full by the payment due date each month.
